FOR IMMEDIATE RELEASE:

SEMINAR: "APPLYING INFRARED (IR) THERMOGRAPHY TO MARINE SURVEYING"

[Allinson Infrared Inspection Services, Inc.](http://www.airisinc.com) is pleased to announce that John (JACK) N. Allinson, II, Accredited Marine Surveyor and Level III Certified Infrared Thermographer will be conducting several two (2) day seminars during the 2012 calendar year in Jacksonville, Florida.

Seminar is to be held at boatyard facilities provided by:

LAMB'S YACHT CENTER
3376 Lake Shore Blvd | [Map](#)
Jacksonville, FL 32210
Telephone (904) 384-5577

Seminar details may be found at www.airisinc.com

Seating for the seminar is limited to **FIVE (5) students**. Seminar content provides for **SIXTEEN (16) Continuing Education (CE)** credits from [SAMS®](#). A Certificate of Attendance will be issued and an "Application Certification" will be awarded to those who qualify for and pass the "optional exam" distributed at the end of the course.

Each day class will begin at 08:00 and end at 16:30 with time allotted for lunch and breaks.

The seminar is designed for:

- Certified IR Thermographers who wish to assist Marine Surveyors,
- Marine Surveyors who want to incorporate IR into their business services,
- Employees of Marine Service & Repair Facilities,
- Employees of Marine Insurance companies, adjusters, and Finance companies.

The seminar will cover the practical application of the Standard for Infrared Inspection of Recreational Yachts & Small Craft Constructed of Fiberglass Reinforced Plastic and Composite Materials 2011 Edition, "The Standard".

Emphasis will be placed on techniques and procedures, data interpretation, verification and documentation.

Pre-requisites for the seminar are a Level I knowledge of Infrared Thermography and a copy of "The Standard". Details covering how to obtain a copy of "The Standard" and Distance Learning courses that satisfy these pre-requisites may be found through links on www.airisinc.com
